

Jawaharal Nehru Planetarium

Bangalore Association for Science Education

'The AmAzing STory of Our Daystar'

A special talk by Prof P Venkatakrishnan, Honorary Professor, Indian Institute of Astrophysics, Bengaluru, in celebration of Teachers' Day

Abstract of the Talk

Just as a physician can diagnose a disease within a human's body from the symptoms exhibited on the surface, so can a solar physicist, diagnose the internal workings of the sun by studying the phenomena happening on the sun's surface and in its atmosphere. This talk will take you through all the different layers of the sun right out to the earth's atmosphere and explain the processes in these layers using not more than college level physics and no mathematics.

Eligibility	:	Teachers
Date	:	September 9, 2017 (Saturday)
Venue	:	Jawaharlal Nehru Planetarium Sri. T Chowdaiah Road, High Grounds Bengaluru – 560 001
