

JAWAHARLAL NEHRU PLANETARIUM

Bangalore Association for Science Education

Science Club discussion on 'Astronomy Basics'

Ever since humans walked on the face of the Earth, they were intrigued by the mysteries of Universe. By carefully observing the alluring night sky myths and anecdotes were associated to group of stars, patterns were deduced in the motion of planets which revealed our own position in the solar system, eclipses were understood as phenomena due to interplay in positions of celestial bodies, etc. In this session above mentioned aspects shall be discussed along with new developments of the field in an introductory way.

Science Club is held every second Sunday of the month. It is mainly targeted at the students studying in classes VIII-XII in order to evoke curiosity and develop scientific temper among them. Interested PUBLIC can also attend the session as it will be at basic level.
